THE FUEL OF THE FUTURE.

GAS, \$1.50 PER 1,000 FEET.

Gas Stoves for Summer Use

As rapidly displacing Wood, Coal and Gasoline for cooking purposes. No bringing of coal nor wood, no dust, no smoke, no odor, and PERFECTLY SAFE and can be cooked in shorter time, and with less annoyance from heat, than by any other method. Where used they have given perfect satisfaction, cost no greater than that of an ordinary wood stove. Ladies who have used them declare that they are indispensable, especially in Summer, and they COULD NOT KEEP HOUSE WITHOUT ONE.

The Gas Company proposes to make a NET PRICE OF \$1.50 PER THOUSAND FEET, from May 1 to Oct. 1, to ALL PERSONS USING FOR COOKING PURPOSES. Read the following opinions from well-known ladies who have used Gas Stoves in Decatur:

R. J. STRATTON, Supl. of Decatur (Light and Gas Co.)

R. J. STRATTON, Supl. Dear Sir: I am using a No. 7 Gas Range, and it is with pleasure that I bear witness to its many good qualities. For utility, cleanliness, comfort and economy, it is all I could desire; anything can be cooked on it that can be cooked on any stove, with, in my opinion, less expense, and certainly with less trouble and more comfort. I cheerfully recommend it.

Yours Truly, MRS. HENRY ELWOOD.

Mrs. J. J. STRATTON, Supl. Dear Sir: I want to say to you that the gas stove you presented to me last Summer is much more satisfactory than I had hoped for. I can do every kind of cooking with it, and the regularity of the heat gives better results than any other stove. I should not desire to keep house without it.

Yours Respectfully, MRS. FRANK H. HALL.

R. J. STRATTON, Supl. Dear Sir: I have in use one of your Gas Cooking Ranges and am a matter of convenience and comfort it is unsurpassed, and in all you claim for it—good cooking at the same cost as oil or coal.

Yours Respectfully, MRS. WM. FLUCK.

Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal use. It keeps the hair soft and silky, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the efficacy of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color."—(Mrs.) S. S. Smith, Pastor U. B. Church, St. Bernard, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of scurf. I bought and used a dime bottle of Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color."—J. H. Smith, Jr., Frank, Spafford, Texas.

Ayer's Hair Vigor, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists and Purveyors.

You should read the Chicago Daily News because you have been told that it is the best paper published in America, which is a large and a basket. This wouldn't suit you. You want a newspaper that is convenient, complete, and condensed, and that contains two to three columns of news, and is published every day, and is sold at a low price, and is a good paper to read. This will now happen in you. You read the Chicago Daily News.

Remember—its circulation is 20,000 a day—more than a million a week—and it costs by mail only 10 cents a month, four months \$3.00, one year \$10.00.

LOCAL AND GENERAL NEWS.

Ho Carried a Hammer.

When Constable Midkiff went to the Union depot yesterday afternoon to notify Ed. Morton, the manager of the Pavilion theatre party, that he was wanted forthwith before the coroner's jury, he found him without trouble. Harry has the language of the formal subpoena down pat, and without showing any papers he proceeded to repeat the words of the subpoena he had in his pocket. Morton's notions rather disconcerted the officer. Morton had his right hand on something he had in his pocket, and at the same time Harry quickly got his hand on the handle of his trusty Smith & Wesson revolver he carries in his hip pocket. When Morton found that it was only a subpoena and not a warrant that he was being read to him, Midkiff states that he dropped his hand and readily consented to come up town and go before the jury. The officer on reaching the jury room with the tall witness had a consultation with the States Attorney, and it was decided to search Morton in the presence of the jury. This was done and in the right hip pocket was found a heavy hammer with a short handle. It should not be inferred that Mr. Morton carries the hammer as a concealed weapon of defense. He is a showman and uses it in his business for the purpose of tucking up bills and scenery. Still it is barely possible that Constable Midkiff's suspicions were well founded, and the hammer was not used. After testifying Morton left the jury room and walked down East Main street with Miss O'Gorman.

Came to Decatur.

J. P. Fugarty and E. S. Barnett left Springfield yesterday morning at 6 o'clock on bicycles, arriving in this city at 2 o'clock p. m., taking dinner at the Jacobs restaurant. They left on the return trip by rail an hour after arriving in Decatur.

I was conversing with a friend who had worked in the Pension Office at Washington, to-day, and he said: "Commissioner Tanner says he gets 12,000 letters every day, and that he can't read them all. He says that the fact that he had to open them and take them out of their envelopes himself, and if he could open four every minute, and if he worked at it continuously for six hours every day, it would take him more than a whole week, including Sunday, to open one day's mail. In the meanwhile, 84,000 more letters would arrive. If it would take one hour and a quarter to answer each of these letters, he would have to work 16,000 hours, or 2,500 days of six hours each to answer them. Of course, he doesn't have to handle this immense mail himself, but he has only 1,500 clerks in his entire bureau, and if they were all put to work answering these letters, and doing nothing else, they would have to work ten hours, or nearly two days each, to answer one day's letters. In view of these facts, and in view of the further fact that there are in the Bureau 250,000 unadjudicated original claims and 70,000 unadjudicated claims for increases, it will be seen how little chance there must be of influencing the Commissioner by letter. The newspapers give us from time to time the touching story about the innocent little girl who wrote, directed and mailed a letter to 'God, in Heaven.' But that little girl was a heavy-headed sage compared with the man who forwards to the Commissioner an application for an appointment, accompanied with highly recommended letters. For the newspaper story always concludes with the information that the kind-hearted postmaster opened the little girl's letter and gave her what she wanted from God. But no one will ever do that for the correspondents of the Commissioner.

In the leading cities of Kansas, like Topeka, Lawrence and Atchison, and also in many smaller towns, there were large quantities of beer consumed on the Fourth of July. During the three days preceding the Fourth thousands of packages of liquor were shipped in from Kansas City by the railroads, and but little effort was made to control it. Out of thirty-five money orders received at the postoffice in Atchison one day from Kansas twenty-four were payable to liquor dealers doing business just across the line in Winthrop, Mo.

Ex-Gov. JOHN L. BEVERIDGE of Chicago, Joseph B. Grenhart of Peoria, and David B. Vaughn of Kankakee were Tuesday appointed by Gov. Miller as commissioners to procure and have erected a suitable monument upon the spot where the Illinois troops opened the battle at Gettysburg. The last general assembly appropriated \$50,000 for the monument. Gov. Beveridge was in command of the Eighth Illinois Cavalry, which opened the fight, Vaughn of the Twelfth Illinois Cavalry, and Grenhart of the Eighty-second Illinois infantry. The three men are a representation of all the regiments of this state that participated in the battle.

A NEW INDUSTRY.

Mr. N. T. Watson, of the firm of Watson & Hughes, who have been conducting a prosperous business in the manufacture of bustles in the Lecky building at 127 East Main street, left for St. Louis this morning on an important mission, which means more business for Decatur, and suits of clothing made to order at the lowest prices. The firm have decided to introduce a complete merchant tailoring department in connection with their business, and Mr. Watson during his absence this week in St. Louis and other cities will select a complete line of fashionable piece goods. The tailoring department will be in charge of Mr. Gilbert, and it will be opened to receive orders on Monday next. Watson & Hughes have already arranged for a dozen sewing machines, and as many skilled operators, the machines to be run by steam. The firm say they will give the people suits of clothes made to order at \$15 to \$35, and will make pantaloons to order at \$3.50 to \$5.00.

THE CHICAGO MAIL thus pays its respects to the Southern Governors: "What a spectacle it is! The Governors of five states issuing proclamations and marshaling troops to prevent a prize fight, and not the slightest check being offered to the managers of the mill! The Governor of Louisiana declares himself and calls on his state troops. The Governor of Mississippi does likewise. Then the Governor of Alabama chips in and proposes his end of the gubernatorial morality of the south, following this the Governor of Texas—Texas, the state whose cowboys frolic with their revolvers and where corpses are as common as five-folks comes forward and says that the slugging match shall not desecrate the soil of the Lone Star state. Hearing this, the Governor of Arkansas calls in his private secretary and grinds out a proclamation. Then, when the Governors have all set their official feet down on the light and got their militiamen all ready to squelch the manager of the mill floods the city of New Orleans and the surrounding country with posters and dodgers advertising the 'savage' and proceeds to sell \$30,000 worth of tickets; when the proper time arrives the sluggers and their adherents, the newspaper men, and the excursionists go down to the depot, get on three or four big trains, and go out to the scene of the fight. And nobody heads them off, notwithstanding the five Governors have been slaying awake nights and having more orders than they can give on the eve of a great battle. Truly the power of the law becomes limp and lumpy when it comes to dealing with prize fights."

Symptoms of Catarrh.

Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acid, at others, thick, mucous, mucous, purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, locking or congluing of the vocal chords, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. If you have all, or any considerable number of these symptoms, you are suffering from nasal catarrh. The more complicated your disease has become, the greater the number and diversity of the symptoms. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more dangerous, or less understood, or more unaccountably treated, by physicians. Every hindrance toward its cure is offered by the manufacturers of Dr. Sago's Catarrh Remedy, for a case of catarrh which they cannot cure. Remedy sold by druggists, at only 50 cents.

An innocent Democratic sheet asks if it is not "remarkable that Great Britain, after having suffered for years under the ruinous disadvantages of free competition and free trade, should have so much capital to invest in American securities and industries?" To this the St. Louis Globe-Democrat responds: "There is nothing 'remarkable' about it. Great Britain has as many centuries of protection as it has had decades of free trade. In order to enable it to ultimately withstand 'free competition' England for hundreds of years had the most rigid and repressive of tariffs, which many important articles and for many years were almost prohibitively high. Protection, in fact, has done for England what it will one day do for the United States, and what it will eventually do for every other country employing protection, when the protection is adequate."

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Dr. A. J. Stoner's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

WATCH CLUBS.

With watches have, in times past, been considered a luxury, in these days they have become practically a necessity. To provide a good watch is, sometimes, inconvenient if the whole amount of its value is required at once. To make it possible for every man, woman and youth to supply themselves with a good watch, we propose offering them on what is known as the Club Plan. This plan has been in successful operation in many of the larger cities for several years, and has become very popular as absolute satisfaction is guaranteed.

ITS ADVANTAGES.

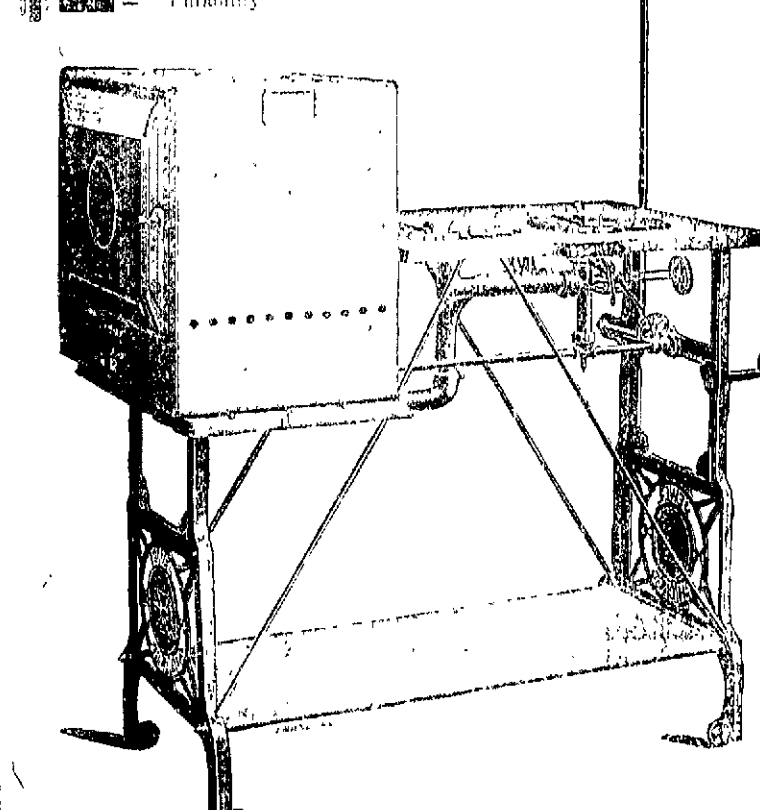

- 1. By paying one dollar per week, the member is enabled to obtain a watch at once.
- 2. The watch being purchased in large quantities from the makers and sold directly to the consumer, a large profit is saved to the member of the club.
- 3. The principle upon which the watch is sold is a guarantee, no member of the club is ever in arrears, and the purchase of watches in large quantities at the lowest prices, and thus directly to the member.
- 4. The club is not a mere money loan, but a business enterprise, and the member is not only guaranteed, but the watch is sold at a profit to the member.
- 5. We shall have two clubs. The first of which will be for thirty-five weeks. Each member will pay one dollar per week for the full club term, and receive a watch at the end of the term. The second club will be for thirty-five weeks, and the member will pay one dollar per week for the full club term, and receive a watch at the end of the term.
- 6. We shall have two clubs. The first of which will be for thirty-five weeks. Each member will pay one dollar per week for the full club term, and receive a watch at the end of the term. The second club will be for thirty-five weeks, and the member will pay one dollar per week for the full club term, and receive a watch at the end of the term.
- 7. We shall have two clubs. The first of which will be for thirty-five weeks. Each member will pay one dollar per week for the full club term, and receive a watch at the end of the term. The second club will be for thirty-five weeks, and the member will pay one dollar per week for the full club term, and receive a watch at the end of the term.

THE JURY AND FAUNCE.

Further Testimony in the McKinley Murder Mystery.

The Show People Testify—Grant Halliday Contradicts Williams.

The McKinley murder mystery is about closed, and on the face of the evidence produced there seems to be nothing for the jury to do except to recommend that Jack Faunce be held to await the action of the September grand jury. Such is the opinion of State's Attorney Mills, Commander Bondure and Marshal Mason.

IN DIABOLIC RUSSIA.
More Testimony to Prove the Charges Laid Against the Czar's Land.
Everything has stood still under the present czar, the bribery and corruption of the officials, the ignorance of the peasants, the interference with all private liberty, continue as under Peter the Great. Mon are sent off by hundreds to Siberia, while it is known by who they were denounced, or what are the crimes imputed to them. The petty interferences in common life are almost incredible; no man can even enter the front of his house in St. Petersburg without special permission from the czar. Foreign newspapers are replete with broad sheets of printing ink over my past objections to the czar's government, which is still in the hands of the czar, and the czar is still in the hands of the czar. The theory of personal government is carried out to its utmost extent; each minister is supposed to communicate directly with the czar, and to take orders from him alone, so that there can be no concert between them, and nothing like what we call a cabinet. In practice, however, this cannot possibly be carried out, and the majority of the affairs of the government are managed by a small circle of favorites, who are not responsible to the czar, and who are not responsible to the people. The czar is still in the hands of the czar, and the czar is still in the hands of the czar. THE YOUNGSTER'S SECRET.
The spectacle of a trim, shapely, well-bred looking young woman walking down Fifth Avenue behind an over-dressed child of perhaps twelve years of age and carrying the youngster's school books on several occasions lately. It seems to be the proper thing with children of the present age, but it is not an altogether cheerful and encouraging sign of the times. These young women are not governesses, unless they come under the English designation of nursery governesses, for the children go to school and presumably are taught something when they get home, and the young women must serve as governesses, and they are very rarely, it would appear, of foreign extraction. In a country like England, where poor girls of good family cannot accept positions which, if not menial, are given menial suggestions, there is the inherent Irish respect for rank and money to combine what seems to be a rather unbecoming service. But in this gloriously republican and independent country the sight is not a pleasant one. Times must be hard when American girls sell their bright and noble self respect for a mess of pottage.—New York Star.

Building and Loan Associations.
The vast majority of city dwellers rent their houses and never have a permanent home. This constitutes a sort of respectable vagabondage including our respectable people of the middle classes. The need of this sort of life is of late coming under discussion. That it involves vast waste and loss, and is seriously detrimental to family character, is beyond question. Building and loan associations have grown into prominence as a remedy, and the subject should be considerably studied by all men of moderate means. The Association, of the Social Sciences Association, estimates the number of such associations at present at nearly 5,000, with an investment of \$300,000,000. There are 600 associations in Ohio, 400 in Illinois, 300 in Michigan, and 200 in Wisconsin. In proportion.—St. Louis Globe-Democrat.
